## SPACEWALKER

*My Journey in Space and Faith as NASA's Record-Setting Frequent Flyer*

Jerry L. Ross with John Norberg

From the age of ten, looking up at the stars, Jerry Ross knew that he wanted to journey into space. This autobiography tells the story of how he came not only to achieve that goal, but to become the most-launched astronaut in history, as well as a NASA veteran whose career spanned the entire US Space Shuttle program. From his childhood in rural Indiana, through education at Purdue University, and a career in the US Air Force, Ross charted a path to NASA after overcoming many setbacks—from failing to qualify for Air Force pilot training because of "bad" eyesight, to an initial failure to be selected into the astronaut program.

The majority of the book is an insider's account of the US Space Shuttle program, including the unforgettable experience of launch, the delights of weightless living, and the challenges of constructing the International Space Station. Ross is a uniquely qualified narrator. During seven spaceflights, he spent 1,393 hours in space, including 58 hours and 18 minutes on nine space walks. Life on the ground is also described, including the devastating experiences of the Challenger and Columbia disasters.

For readers who have followed the space program from Mercury through the International Space Station and wonder what comes next, this book provides fascination; for young people interested in space exploration and reaching for their dreams, whatever they might be, this book provides inspiration. Full of stories of spaceflight that few humans have ever experienced, told with humor and honesty, *Spacewalker* presents a unique perspective on the hard work, determination, and faith necessary to travel beyond this world.

## WINGS OF THEIR DREAMS

*Purdue in Flight*

John Norberg

Pb, 978-1-55753-489-7 • \$24.95

Throughout flight's first 100 years, Purdue University has propelled unique contributions from pioneer educators, aviators, and engineers who flew balloons into the stratosphere, barnstormed the countryside, helped break the sound barrier, and left their footprints on lunar soil. In *Wings of Their Dreams*, author John Norberg follows

the flight plans and footsteps of aviation's pioneers and trailblazers across the twentieth century—a path from Kitty Hawk to the Sea of Tranquility—and beyond. Norberg reminds readers that the first and last men to land on the moon first trekked across the West Lafayette, Indiana campus on their journeys into the heavens and history. Norberg describes how, in every small step and giant leap in our country's pilgrimage from the dawn of human flight to the space age, Purdue people and programs pushed aviation's evolution to new heights and helped expand the frontiers of flight.

## KIRBY'S WAY

*How Kirby and Caroline Risk Built their Company on Kitchen-Table Values*

Angie Klink

Pb, 978-1-55753-614-3 • \$16.95

E-book available, \$9.99

The late J. Kirby Risk II called himself "a small-town businessman from the banks of the Wabash." He was much more. The fastidious, dapper man from Lafayette, Indiana, exuded philanthropy and free enterprise. He

was likened to a border collie, working the flock, rounding up strays, darting to key places to close up stragglers, and nudge everyone toward a goal. His demanding, yet endearing, behavior was for good. That was Kirby's way. Kirby's forthright character hummed in the undercurrent of his two occupations. His first career was compassion, and his second career was the building of the battery company he cofounded in 1926 with \$500 borrowed from his father. Today, Kirby Risk Corporation is a multimillion-dollar electrical products and services industry headquartered in Lafayette, Indiana, and led by Kirby's son, Jim.

## UNCLE

*My Journey with John Purdue*

Irena McCammon Scott

Pb, 978-1-55753-458-3 • \$19.95

In the most comprehensive biographical study of John Purdue (c. 1802-1876) to date, Purdue's great-great-grandniece describes her travels to the diverse places where Purdue had lived in order to learn about the mysterious relative known in her family as "Uncle". Using fresh, unpublished source materials-including Purdue's

personal correspondence, business ledgers, and the family oral histories-the author examines Purdue's beginning among illiterate, immigrant, Pennsylvania mountain-hollow folks. *Uncle* challenges a commonly held belief that Purdue was a cold-hearted business mogul. Instead the author shows Purdue as a human being and as a generous family man with a visionary nature.

David Ross (1871–1943) and George Ade (1866–1944) were trustees, distinguished alumni and benefactors of Purdue University. Their friendship began in 1922 and led to their giving land and money for the 1924 construction of Ross-Ade Stadium, now a 70,000 seat athletic landmark on the West Lafayette campus.

### THE QUEEN OF AMERICAN AGRICULTURE

*A Biography of Virginia Claypool Meredith*  
Fredrick Whitford, Andrew G. Martin, and Phyllis Matthies  
Hb, 978-1-55753-518-4 • \$39.95

Virginia Claypool Meredith’s role in directly managing the affairs of a large and prosperous farm in east-central Indiana opened doors that were often closed to women in late nineteenth century America. Her status allowed her to campaign for the education of women, in general, and rural women, in particular.

While striving to change society’s expectations for women, she also gave voice to the important role of women in the home. A lifetime of dedication made Virginia Meredith “the most remarkable woman in Indiana” and the “Queen of American Agriculture.” Meredith was also an integral part of the history of Purdue University. She was the first woman appointed to serve on the university’s board of trustees, had a residence hall named in her honor, and worked with her adopted daughter, Mary L. Matthews, in creating the School of Home Economics at Purdue University.

### THE GRAND OLD MAN OF PURDUE UNIVERSITY AND INDIANA AGRICULTURE

*The Biography of William Carroll Latta*  
Frederick Whitford and Andrew G. Martin  
Hb, 978-1-55753-395-1 • \$29.95

Great people lead great universities. Purdue University is fortunate to count its thirteenth faculty member, William Carroll Latta, as one of those people. Certainly, thirteen proved to be a lucky number for Purdue and agriculture in Indiana. This book recounts

William Latta’s far-reaching influence on agriculture at the university, throughout Indiana, and on a national level. Recognized as the Father of the School of Agriculture and of Extension at Purdue, Latta was an early and tireless promoter of the university and what it could do for the people of the state. From developing the four-year agriculture program, to conducting practical agricultural research prior to the creation of Purdue’s Agricultural Experiment Station, to leading Purdue’s agricultural outreach efforts to bring the university to the people, Latta’s contributions are still evident in Purdue’s modern-day agricultural programs.

### AN ENDURING QUEST

*The Story of Purdue Industrial Engineers*  
Ferdinand Leimkuhler  
Pb, 978-1-55753-544-3 • \$29.95

The process of industrialization that began over two hundred years ago is continuing to change the way people work and live, and doing it very rapidly, in places like China and India. At the forefront of this movement is the profession of industrial engineering that develops and applies the technology that drives industrialization.

This book describes how industrial engineering evolved over the past two centuries developing methods and principles for the planning, design, and control of production and service systems. The story focuses on the growth of the discipline at Purdue University where it helped shape the university itself and made substantial contributions to the industrialization of America and the world. The story includes colorful and creative people like Frank and Lillian Gilbreth of "Cheaper by the Dozen" fame. Lillian was the first lady of American engineering as well a founder of Purdue's Industrial Engineering.

Angie Klink  
Hb, 978-1-55753-638-9 • \$24.95

*Bridges and More* takes the reader from the early years of Civil Engineering when Purdue's campus consisted of a smattering of red brick buildings surrounded by grassy

meadows and roads flanked by white, wooden fences to today's state-of-the-art facilities such as the Bowen Laboratory for Large-Scale Civil Engineering Research and the online hub for the Network for Earthquake Engineering Simulation (NEES). *Bridges and More* honors Purdue's School of Civil Engineering with historic images and an appealing account of 125 years of education, research and a profession that is, as the title suggests, about so much more than bridges.

### ONE SMALL STEP

The University's alumni have led significant advances in research and development of aerospace technology, have headed major aerospace corporations and government agencies, and have established an amazing record for exploration of space. More than one third of all US manned space flights have had at least one crew member who was a Purdue engineering graduate (including the first and last men to step foot on the moon).

### NATIVE TREES OF THE MIDWEST

Identification, Wildlife Values, & Landscaping Use

Sally S. Weeks, Harmon P. Weeks, Jr., and George R. Parker  
Pb, 978-1-55753-572-6 • \$45.00  
E-book available, \$22.99

species in any season and color photographs show all important characteristics. Not only does the book allow the user to identify trees and learn of their ecological and distributional attributes, but it also presents an evaluation of each species relative to its potential ornamental value for those interested in landscaping. Since tree species have diverse values to wildlife, an evaluation of wildlife uses is presented with a degree of detail available nowhere else. The revised and expanded second edition contains a chapter on introduced species that have become naturalized and invasive throughout the region. All accounts have been reviewed and modifications made when necessary to reflect changes in taxonomy, status, or wildlife uses. Keys have been modified to incorporate introduced species.

### POSSUM IN THE PAWPAW TREE

A Seasonal Guide to Midwestern Gardening

B. Rosie Lerner & Beverly S. Ntzhhammer  
Pb, 978-1-55753-054-7 • \$19.95

One of the latest trends in home horticulture is regional gardening, but most popular garden books and syndicated columns are written by

authors on the East and West coasts. *Possum in the Pawpaw Tree* is aimed at the heartland of the United States, where "normal" weather means bitter winters, torrential spring rains, and summer drought. Since such normal weather is assured, midwestern gardeners must be prepared for the unexpected. The material here is arranged to provide a handy month-by-month guide to indoor and outdoor gardening activities, both that focus on gardening problems and disasters peculiar to the Midwest.

degrees. Deam's herbarium and 3,000-volume botanical library are now housed at Indiana University.

### FROM PIONEERING TO PERSEVERING

Family Farming in Indiana to 1880

Paul Salstrom  
Pb, 978-1-55753-453-8 • \$23.95

Indiana's pioneers came to southern Indiana to turn the dream of an America based on family farming into a reality. The golden age prior to the Civil War led to a post-War preserving of the independent family farmer. Salstrom examines this "independence" and finds the label to be less than

adequate. Hoosier farming was an inter-dependent activity leading to a society of borrowing and loaning. When people talk about supporting family farming, as Salstrom notes, the issue is a societal one with a greater population involved than just the farmers themselves.

### HOOSIER HOME REMEDIES

Varro E. Tyler

Hb, 978-0-91119-77-5 • \$10.95

With a sense of urgency, Dr. Tyler has collected and transcribed some 750 folk remedies still alive in the memories of more than 175 Hoosier-area correspondents. The pharmacologist, who has thirty years experience with natural-product remedies, fears these cures will soon be forgotten, since modern medicine usually writes them

off as hoax, and those who practice them are becoming fewer and fewer. By suggesting further investigation of some remedies, warning readers against downright dangerous "cures," and noting the constitutive ingredients of those proven effective, Tyler invites further illumination of this shady region between superstition and science while entertaining his reader with much fascinating medical lore.

### INDIANA CANALS

Paul Fatout

The rising tide of enthusiasm for internal improvements reached flood stage in the mammoth system legislation of 1836, which provided for a network of canals throughout the state, and for several turnpikes and a few railroads as well.

### A ROUND INDIANA

*Round Barns in the Hoosier State*  
John T. Hanou  
Pb, 978-1-55753-037-0 • \$10.95

Of the 226 round barns that are known to have existed in Indiana, more than 100 have vanished from the landscape, thus depriving the state of

beautiful landmarks and testimonials to the ingenuity of turn-of-the-century agriculture and architecture. The author's admiration for the round barn's grace and his concern for its survival is evident on every page as he traces its history from George Washington's 1793 sixteen-sided barn to the development of the "Ideal Circular Barn" and associated patents to the demise of the structures in the second half of the twentieth century.

On Christmas Day in 1854, teachers and advocates of education came together to form the Indiana State Teachers Association. At that time, many Hoosiers did not embrace the concept of "free education," instead believing that

schools ought to be funded by those who were being educated. Immediately after ISTA's founding, its members began their advocacy of education, especially free public education for all children. Over the next 150 years, members of the Association stood ready to advance the cause of education.

### GRAND DRAGON

*D. C. Stephenson and the Ku Klux Klan in Indiana*

M. William Lutholtz

Pb, 978-1-55753-046-2 • \$19.95

The Ku Klux Klan reached its height in the 1920s, and nowhere was it as large and politically powerful as in Indiana, where about 30 percent of the native-born white male population were Klansmen. This book explores the career of D. C.

Stephenson, grand dragon of the Indiana Klan, his rise to power, and his eventual conviction for second-degree murder in 1925. *Grand Dragon* traces Stephenson's background, still shrouded in mystery due to Stephenson's own colorful but imaginary accounts of his early years. A political opportunist, Stephenson's rise to power in the loan was startlingly swift, but so was his fall from grace.

### MY AMIABLE UNCLE

*Recollections about Booth Tarkington*

Susanah Mayberry

Hb, 978-0-91119-866-9 • \$15.95

The author of this volume draws primarily upon her own personal experiences, family lore, and letters (some never published before) to portray her amiable uncle. She tells of the pleasure it gave him to entertain his young nephews and nieces at his Tudor-style winter home in Indianapolis – where they

played a spirited form of charades. She recalls vacations which she, as a college student, spent at his light-filled summer home in Kennebunkport, Maine – where she met his famous neighbors. During all of those times, Uncle Booth was the keen observer of youth, who created Penrod and friends from his observations, and the teacher of youth, who transmitted his own love of art to his young relations.

## ABOUT PURDUE UNIVERSITY PRESS

Founded in 1960, Purdue University Press is the academic publishing arm of Purdue University. It is a unit of Purdue University Libraries, and shares the library's philosophy of opening access to scholarly resources as widely as possible to the citizens of Indiana and of providing a repository for information about the region. The regional studies titles included in this catalog are just one part of the Press's publishing list. Every year, Press staff produce around 25 books and 15 journals, focused on various academic fields for which Purdue is famous. These include agriculture, aviation technology, engineering education, veterinary medicine, civil engineering and building construction management, as well as select fields in the humanities and social sciences. While some authors are experts from Purdue, most of the books and articles the Press publishes are written by scholars and enthusiasts from outside the university. We welcome new manuscripts and proposals, and details of how to submit these can be found at, [www.thepress.purdue.edu](http://www.thepress.purdue.edu).

## JOURNAL OF PURDUE UNDERGRADUATE RESEARCH

The *Journal of Purdue Undergraduate Research* has been established to publish outstanding research papers written by Purdue undergraduates from all disciplines who have completed faculty-mentored research projects. The journal is run by students, but behind the scenes is a unique partnership between Purdue University Press and other departments of Purdue University Libraries, working with Purdue Marketing and Media and the Online Writing Lab, based in the Department of English. Publication of JPUR is sponsored by the Office of the Provost at Purdue University.

JPUR is an Open Access journal. This means that it uses a funding model that does not charge readers or their institutions for access. Readers may freely read, download, copy, distribute, print, search, or link to the full texts of articles. For submission or publication information for the *Journal of Purdue Undergraduate Research*, please contact the Journal Coordinator at [jpur@purdue.edu](mailto:jpur@purdue.edu).
